

Climate Capitalism Released!

26 April 2011

Dear Friends,

To say we are excited to be announcing the launch of Hunter's new book *Climate Capitalism* would be an understatement. 12 years in the making *Climate Capitalism* not only captures Hunter's expertise and charisma effectively, but also creates the strongest business case yet for implementing genuine sustainability. Help us celebrate the launch of Hunter's new book by being one of the first to purchase a copy of this seminal work (available at your local bookstore or from the links to the right).

A book launch is no small undertaking. In the last few weeks Hunter has been in 10 different states speaking at various events and conducting book signings. She's on the road as I write.

We want, however, to make sure that YOU have a chance to hear from her, too. [Register now](#) to join an interactive teleforum with Hunter this Friday—discussing how the principles outlined in *Climate Capitalism* are key to improving our current economic security and future prosperity.

While on the road Hunter is also keeping her fingers busy [tweeting](#), posting to [facebook](#), and [blogging](#) (read her [latest entry about the launch](#) on our new NCS blog). Be sure to follow her to get up to the minute updates.

Thank you for supporting Hunter and Natural Capitalism Solutions—we could not do what we do without you.

Cheers,

Toby Russell
CEO
